

HARSHAD VELE

Senior Java Backend Developer

Mumbai, India | +91-8237172969 | harshadvele538@gmail.com | linkedin.com/in/harshad-vele

Professional Summary

Java Backend Developer with nearly **5 years** of experience building production-grade microservices, enterprise applications, and cloud data solutions across banking, financial services, and energy domains. Hands-on with **Java 17–21, Spring Boot, REST APIs, Apache Kafka, Redis, AWS, Snowflake, dbt, Amazon S3, and Elasticsearch**, plus backend design, data integration, monitoring, performance optimization, and Agile/Scrum delivery with direct client engagement. Uses AI coding assistants such as Claude Code to accelerate development workflows.

Professional Experience

Software Engineer – Java / Backend

Ness Digital Engineering (India) Private Limited

May 2026 – Present

Mumbai, India

- Built cloud data workflows in **dbt** to transform **Snowflake** data and deliver processed datasets to **Amazon S3**.
- Implemented **AI Theme Tagging** end to end: retrieved and validated source data, enriched records, and indexed them into **Elasticsearch**, verifying tag attributes were accurately populated and queryable by downstream applications.
- Authored **Amazon CloudWatch** queries to monitor tagging behavior and accelerate root-cause analysis.
- Documented CloudWatch monitoring, Elasticsearch operations, and database queries to speed up team troubleshooting.

Backend Developer – Java

Apptware Solutions

Oct 2024 – May 2026

Pune, India

- Architected and delivered **Finedge**, a microservices-based banking platform spanning 6+ domain modules (Admin, Banking, Customer, Loan, Deposit, Placement) using **Java 21** and **Spring Boot 3.4.x**.
- Implemented **multi-layer Redis and Caffeine caching** over **Feign Client** calls, reducing API latency on high-traffic endpoints.
- Built the **RC-VAHAN data pipeline** for Bajaj Finance, integrating third-party REST APIs with **Apache Kafka** to parse, validate, and stream vehicle registration data at enterprise scale.
- Mentored junior developers, conducted technical interviews, and authored design and onboarding documentation.

Software Developer – Java

Accenture Solutions Pvt. Ltd.

Oct 2021 – Sep 2024

Mumbai, India

- Delivered backend features for an **Enterprise Asset Management (EAM)** platform serving a power-generation client across Transmission & Distribution, Generation, Renewable, and Thermal asset categories.
- Built **RESTful Spring Boot services** integrated with **IBM Maximo** and **Oracle DB**, improving cross-department reporting.
- Optimized complex **PL/SQL stored procedures** processing high-volume asset records, improving query performance.
- Engaged clients for requirement gathering and sprint reviews within **Agile/Scrum** teams (stand-ups, code reviews, demos).

Technical Skills

Languages: Java (17–21), SQL, PL/SQL, HTML, CSS, JSON, XML

Frameworks & APIs: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Vaadin, REST, GraphQL, Feign Client, Apache Kafka, OAuth 2.0, Keycloak

Databases & Caching: Oracle DB, PostgreSQL, MongoDB, Redis, Caffeine, DBeaver

Cloud & Data: AWS, Amazon S3, Amazon CloudWatch, Snowflake, dbt, Elasticsearch

DevOps & Testing: Docker, Terraform, Jenkins, GitLab CI/CD, Bitbucket, JUnit, Mockito, TDD, JMeter

Tools & AI: Maven, Gradle, IntelliJ IDEA, Postman, Swagger, JIRA, Confluence, Claude Code

Education

Bachelor of Engineering

Dr. Babasaheb Ambedkar Technological University, Lonere

Aug 2017 – May 2021

Maharashtra, India

Achievements & Activities

Rising Star Award (2024) and **Best Team Award**, Apptware Solutions – for technical delivery and on-time quality releases.

Organizer, CodeCraft Hackathon – planned and ran a company-wide hackathon promoting technical innovation.
