

HARSHAD VELE

Senior Java Developer | Mumbai, India

+91-8237172969 harshadvele538@gmail.com linkedin.com/in/harshad-vele

Professional Summary

Results-driven Java Backend Developer with **4.5+ years** of experience architecting and delivering production-grade microservices and enterprise applications. Proficient in **Java 17–25, Spring Boot, REST APIs, Kafka, Redis, Docker, and AWS**. Proven track record in Agile/Scrum teams, client engagement, and mentoring. Experienced integrating AI coding assistants (Claude Code) into daily development workflows to accelerate delivery and quality.

Professional Experience

Backend Developer — Java Oct 2024 – Present
Apptware Solutions, Pune

- Architected and delivered a **microservices-based banking platform (Finedge)** with 6+ domain modules (Admin, Banking, Customer, Loan, Deposit, Placement) using **Java 21** and **Spring Boot 3.4.x**, enabling scalable financial operations.
- Implemented **multi-layer caching** using **Redis** and Caffeine via Feign Client inter-service communication, reducing API response latency by significant margins across high-traffic endpoints.
- Built an **RC-VAHAN data pipeline** for Bajaj Finance integrating third-party REST APIs and **Apache Kafka** to parse, validate, and stream vehicle registration data at enterprise scale.
- Mentored junior developers, conducted technical interviews, and produced technical documentation — ensuring team alignment and knowledge transfer.

Software Developer — Java Oct 2021 – Sep 2024
Accenture Solutions Pvt. Ltd., Mumbai

- Led backend development of an **Enterprise Asset Management (EAM) platform** for BHE (power-plant client), covering Transmission & Distribution, Generation, Renewable, and Thermal asset categories.
- Built and maintained **RESTful Spring Boot services** integrated with **IBM Maximo** and **Oracle DB**, improving asset data accessibility and reporting across departments.
- Designed and optimised complex **PL/SQL stored procedures** to process high-volume maintenance and asset records, achieving measurable query performance gains.
- Engaged directly with clients for **requirement gathering, sprint reviews, and status updates** over a 3-year tenure, demonstrating strong written and verbal communication skills.
- Collaborated in **Agile/Scrum** cross-functional teams, participating in planning, stand-ups, code reviews, and sprint demonstrations to ensure on-time delivery.

Technical Skills

Languages & Core:	Java (17–25), SQL, PL/SQL, HTML, CSS, JSON, XML
Frameworks:	Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Vaadin
Microservices & API:	REST, GraphQL, Feign Client, Apache Kafka, OAuth, Keycloak
Databases & Cache:	Oracle DB, PostgreSQL, MongoDB, Redis (Caching), DBeaver
Cloud & DevOps:	AWS, Docker, Terraform, Jenkins, GitLab CI/CD, Bitbucket
Testing:	JUnit, Mockito, TDD, JMeter
Build & Tools:	Maven, Gradle, IntelliJ IDEA, Postman, Swagger, JIRA, Confluence
AI Tooling:	Claude Code (AI coding assistant), prompt engineering for development workflows

Education

Bachelor of Engineering Aug 2017 – May 2021
Dr. Babasaheb Ambedkar Technological University, Lonere

Key Achievements & Activities

- Rising Star Award (Apptware, 2024)** — Recognised for exceptional technical delivery and fast impact in first year.
- Best Team Award (Apptware)** — Delivered projects on time with high quality as a core team contributor.
- Organiser — CodeCraft Hackathon** — Planned and executed a company-wide hackathon promoting technical innovation and collaborative problem-solving.
