CANDIDATE SNAPSHOT

Total Experience: 5 years (Oct 2021 – present)

Banking Domain: Core banking platform (Finedge) and NBFC data pipeline for Bajaj Finance

Current Location: Mumbai, India

Notice Period: 30 days

Nationality: Indian (valid passport held)

Visa Status: Requires UAE employment visa sponsorship

Languages: English (Professional), Hindi (Native), Marathi (Native)

PROFESSIONAL SUMMARY

Java Backend Developer with 5 years of experience designing and shipping production-grade microservices and REST APIs, with hands-on banking and financial services delivery. Architected Finedge, a multi-module core banking platform on Java 21 and Spring Boot 3.4.x, and built an Apache Kafka streaming pipeline for Bajaj Finance, a leading NBFC. Strong across the backend stack — Java 17–21, Spring Boot, microservices, REST, Kafka, Redis, OAuth 2.0, Oracle/PostgreSQL, AWS (S3, SQS, SNS, ECS, RDS), Docker and GitLab CI/CD — with experience in production monitoring and incident root-cause analysis using Amazon CloudWatch. Client-facing throughout: requirement gathering, sprint reviews, mentoring and technical documentation. Seeking a Software Engineer role in banking / digital payments in Abu Dhabi.

CORE COMPETENCIES

Banking & Financial Services Domain • Microservices Architecture • RESTful API Design & Development • Spring Boot Ecosystem • Event-Driven & Asynchronous Systems (Apache Kafka, AWS SQS/SNS) • Third-Party API Integration • Distributed Caching (Redis) • API Security (OAuth 2.0 / Keycloak) • Database Design & Query Optimisation • Docker & CI/CD Pipelines • Application Monitoring & Observability • Production Troubleshooting & Root-Cause Analysis • Code Quality (SonarQube) • Agile / Scrum Delivery • Mentoring & Code Reviews

PROFESSIONAL EXPERIENCE

Software Engineer – Java / Backend **May 2026 – Present**

Ness Digital Engineering (India) Private Limited *Mumbai, India*

Global digital engineering services firm delivering data and platform solutions to enterprise clients.

- Authored Amazon CloudWatch log queries to monitor application behaviour, validate application health, and cut root-cause analysis time during production incidents.
- Implemented AI Theme Tagging end to end — retrieved and validated source data, enriched records, and indexed them into Elasticsearch, verifying tag attributes were accurately populated and queryable by dependent applications.
- Built and maintained cloud data processing workflows in dbt (Data Build Tool) to transform Snowflake datasets and deliver curated outputs to Amazon S3 for downstream consumption.
- Produced technical documentation covering CloudWatch monitoring, Elasticsearch operations and database queries, reducing repeat investigation effort across the team.
- Collaborated across backend, database, cloud and data-engineering functions to keep production pipelines reliable.

Backend Developer – Java (Banking & Financial Services) **Oct 2024 – May 2026**

Apptware Solutions *Pune, India*

Product engineering company serving BFSI and enterprise clients across India and overseas markets.

- **Finedge – Core Banking Platform:** Architected and delivered a microservices-based core banking platform spanning 6+ domain modules (Admin, Banking, Customer, Loan, Deposit, Placement) on Java 21 and Spring Boot 3.4.x.
- Designed multi-layer caching with Redis and Caffeine over Feign Client inter-service calls, reducing API response latency on high-traffic endpoints.
- **RC-VAHAN Data Pipeline – Bajaj Finance (NBFC):** Integrated third-party government REST APIs with Apache Kafka to parse, validate and stream vehicle registration data at enterprise scale.
- Secured services using OAuth 2.0 / Keycloak, and containerised deployments with Docker through GitLab CI/CD.
- Mentored junior developers, conducted technical interviews for backend hiring, and authored design and onboarding documentation.
- Recognised with the Rising Star Award (2024) and Best Team Award for delivery quality and first-year impact.

Software Developer – Java **Oct 2021 – Sep 2024**
Accenture Solutions Pvt. Ltd. *Mumbai, India*
Global professional services firm; engagement with a large power generation and transmission client.

- Built and maintained RESTful Spring Boot services integrated with IBM Maximo and Oracle DB, improving asset data accessibility and cross-department reporting.
- Delivered backend features for an Enterprise Asset Management (EAM) platform covering Transmission & Distribution, Generation, Renewable and Thermal asset categories.
- Designed and optimised complex PL/SQL stored procedures processing high-volume maintenance and asset records, improving query performance.
- Engaged directly with client stakeholders for requirement gathering, sprint reviews and status reporting throughout a three-year engagement.
- Worked in Agile / Scrum cross-functional teams across sprint planning, daily stand-ups, code reviews and sprint demonstrations.

TECHNICAL SKILLS

Languages: Java (17–21), SQL, PL/SQL, JSON, XML, HTML, CSS

Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Vaadin

APIs & Messaging: REST/JSON, Apache Kafka (asynchronous & event-driven), AWS SQS/SNS, Feign Client, GraphQL, Swagger/OpenAPI, Postman, third-party API integration

Source Control & CI/CD: Git (GitLab, Bitbucket), GitLab CI/CD, Jenkins, Docker, Terraform, Maven, Gradle

Monitoring & Cloud: Amazon CloudWatch, AWS (S3, SQS, SNS, Secrets Manager, RDS, ECS), Elasticsearch, Snowflake, dbt

API Security: OAuth 2.0, Keycloak

Databases & Caching: Oracle DB, PostgreSQL, MongoDB, Redis, Caffeine, DBeaver

Testing & Quality: JUnit, Mockito, TDD, JMeter, SonarQube

Tools & AI: IntelliJ IDEA, JIRA, Confluence, AIDLC, Claude Code

EDUCATION

B.Tech, Electronics & Telecommunication Engineering **Aug 2017 – May 2021**
Dr. Babasaheb Ambedkar Technological University, Lonere *Maharashtra, India*
Degree certificate available for MOFA / UAE Embassy attestation on request.

ACHIEVEMENTS & ACTIVITIES

- Rising Star Award, Apptware Solutions (2024) — for exceptional technical delivery and impact within the first year.
- Best Team Award, Apptware Solutions — core contributor on a team delivering projects on time and to a high quality bar.
- Organiser, CodeCraft Hackathon — planned and ran a company-wide hackathon promoting technical innovation and collaborative problem-solving.
